

ROMGAZ – April 2015

This document has been prepared by SNGN Romgaz S.A. for the annual conference call with investors on April 30, 2015.

This document is for your information only and all statements contained herein are related to intentions, assumptions and forecasts made by SNGN Romgaz S.A. or by its management. None of the information included herein shall be assumed as an invitation, an offer, a recommendation or an opinion expressed by SNGN Romgaz S.A. to subscribe, purchase or sell any securities. Also, this document and all information included herein shall not form the basis of any contract, investment decision or commitment whatsoever. This document and all information included herein shall not be treated as a consultancy or advice whatsoever.

This presentation is not an offer for sale of securities in the United States or any other jurisdiction. The Company's shares have not been and will not be registered under the U.S. Securities Act of 1933 (the "Securities Act") or with any securities regulatory authority of any state or other jurisdiction of the United States.

To the extent available, the industry, market and competitive position data contained in this presentation has come from official or third party sources. While the Company believes that each of these publications, studies and surveys has been prepared by a reputable source, the Company has not independently verified the data contained therein. Accordingly, undue reliance should not be placed on any of the industry, market or competitive position data contained in this presentation.

This presentation may include certain forward-looking statements, beliefs or opinions. No representation is made that any of these statements, beliefs or opinions will be achieved. There are a number of risks, uncertainties and factors that could cause actual results and developments to differ materially from those expressed or implied by these statements, beliefs or opinions. Past performance of the Company cannot be relied on as a guide to future performance.

This document does not purport to contain all information that may be necessary in respect of the Company or its securities and each person receiving this document should make an independent assessment.

Neither SNGN Romgaz S.A. nor its directors, management, employees and their consultancies can be held responsible for any losses or damages howsoever arising, directly or indirectly, from any use of this document or its contents.

All figures included in this presentation are rounded ("round to nearest" method).

Company Overview

¹ Based on CPR prepared by DeGolyer&MacNaughton updated to June 30, 2013

² Distributed from the year's net profit

Romgaz delivered strong EBITDA and Profit margins

- Revenues advanced by 15.4% y/y in 2014 (compared to a year before) mostly due to higher gas prices
- ✓ EBITDA: +27.0% y/y last year to RON 2,490 mln on higher top line
- Profit after tax: +41.6% y/y to RON 1,410 mln in 2014
- ✓ EBITDA margin was elevated at 55.4% last year
- ✓ Net margin has also improved to 31.4% last year.

Positive financial performance reported during 2012 - 2014

Factors contributing to the financial result

Higher regulated gas production prices

Higher storage tariffs

Sourse: ANRE, Romgaz

Romgaz continues to post elevated profitability									
Selected P&L items RON									
 RON min Revenues - of which Revenues from Gas Production Revenue from Gas Resale Revenue from Services 	2011 4,195 2,466 1,354 368	2012 3,838 2,508 1,053 270	2013 3,894 2,808 461 394	2014 4,493 3,553 131 455	 Breakdown of Revenues The main source of revenue of Romgaz is the sale of gas production, which increased by 27% in 2014 mostly as a result of higher prices. Until 2014, the secondary source of revenue was the resale of imported gas; related sales recorded a downward trend due to weaker market demand as well as to the ANRE Order no 24/2013 				
 Revenue from Energy Other income 	82	134	207 54	336 108	 Revenue from gas storage improved 17% y/y mostly due to higher tariffs. Romgaz started the electric power production after the takeover of lernut plant in 2013. 				
Cost of commodities sold Changes in inventory Raw materials Exploration expense Employee benefit expense Other gains and losses	-1,169 81 -131 -187 -478 77	-905 111 -118 -193 -503 -50	-439 56 -79 -59 -504 -204	-176 28 -66 -43 -523 -275	• Main events in 2014 were the state's decision to delay the deadline for the gas price deregulation process for households by 2.5 years to mid-2021 and to decrease the social insurance contribution rate paid by employers by 5% (the latter starting Sept)				
Other expenses Finance costs	-506 -24	-436 -24	-745 -13	-1,035 -24	 "Other expenses" include gas royalties and other related taxes: gas royalty is typically the largest item (2014: RON 290 mln) Windfall prefit toy is set on the additional revenues abtained by network as 				
EBITDA EBITDA margin D&A	-703	1,854 48.3% -606	1,960 50.3% -782	2,490 55.4% -777	• Windfall profit tax is set on the additional revenues obtained by natural gas producers as a result of price deregulation (2014: RON 370 mln); also, the tax paid on special constructions (due starting Feb 1, 2014) amounted to RON 92 mln in 2014				
EBIT EBIT margin	1,237	1,248 <mark>32.5%</mark>	1,177 30.2%	1,713 <mark>38.1%</mark>	 "Other gains and losses" increased in 2014 and 2013 mainly due to provisions for certain doubtful clients "Investment income" represents interest from cash deposits and state bonds 				
Investment income Profit before tax Income tax	107 1,342 -155	148 1,396 -276	123 1,301 -305	79 1,788 -378	• EBITDA margin (EBITDA as % of sales) climbed to 55.4% in 2014 fuelled by higher revenues				
Net Profit <i>Net margin</i>	1,188 28.3%	1,119 29.2%	996 25.6%	1,410 31.4%	EBIT margin improved to 38.1% in 2014Also, Net margin advanced to 31.4% last year .

Gross Dividends (RON mIn) and Payout Ratios

Net Cash and other Short Term Financial Assets (RON mln)

Mature Market With Long History of Production and Significant Upside Opportunities

Sizeable reserve base with a signification portion proven developed

- Three production areas: **Transylvanian Basin (around 90% of production)**; Muntenia Moesian Platform and Moldavia Platform
- **25 fields hold about 70% of Romgaz reserves** (average size of proved reserves per average field is of 450 million m³, with 17 fields with over 1 bcm)
- Recovery factors between 55% and 85% for most fields (90% in the more mature fields)
- Six gas storage facilities native gas acts as cushion gas in the storage process

- Reevaluation driven by investment in well workovers and installation of compressors
- Effect of increasing gas prices
- Bringing existing discoveries on-stream
- New discoveries

Source: CPR prepared by DeGolyer&MacNaughton updated to June 30, 2013.

- ¹ Probable and possible reserves have not been risk adjusted to make them comparable to proved reserves.
- ² Application of any risk factor to contingent resources quantities does not equate contingent resources with reserves.

Revisions and New Discoveries Reserves Replacement Ratio (%)

Exploration Overview

Significant Resource Upside Potential

- ✓ Petroleum agreements for 9 onshore exploration blocks (about 17,650 km² across the Transylvania, Moldova, Oltenia and Muntenia basins) with 100% working interests
 - 30 gas accumulations were discovered since 2000 contributing over 3.8 bcm cumulative production
 - Contingent resources (C2) in 21 discoveries of c. 19.4 bcm (2014 preliminary: new confirmed C2 resources of about 5 bcm)

Exploration Works 2012-2014 of the Key Nine Blocks

	2012		20	13	2014		
	Units	RON min	Units	RON mln	Units	RON mIn	
3D (km²)	700	52	1,830	145	1.218	82	
2D (km²)	517	23	224	9	451	20	
Well drilling	5	66	25	206	20	260	
Other works ⁽¹⁾	-	9	-	7		5	
TOTAL		150		367		348	

¹ Other works: MT sounding, Gore-Sorber surveys and development for experimental production.
² Based on Romgaz own assessment.

- ✓ Current exploration phase 2011-2016 with 3D/2D seismic data and 75 wells
- ✓ Total investment of approximately \$520 mln
- Development programme in progress for 38 new wells tested (22 were successful, 12 were dryhole, the rest - 4 - are currently in progress)
- ✓ Total P50 unrisked prospective volumes of c. 80 bcm; prospects in low-risk and deeper horizons (2014 preliminary: new P50 resources identified of c. 2 bcm)
- 10% interest in offshore exploration in the Black Sea with Lukoil and Pan Atlantic (East Rapsodia + Trident) for c. 2,000 km²

Exploration Drilling Program 2015

		2015
Contingent Resources	No. of wells	13
(C2)	Assessments of resources (bcm) ²⁾	10
Prospective Resources (P50)	No. of wells	25
	Assessments of resources (bcm) ²⁾	31

Overall in 2014:

- ✓ 3D seismic services acquired on a surface of 1200 km²
- ✓ 3D+2D seismic surveys in Moldova, Muntenia and Oltenia
- ✓ Drilling of total 20 new exploration wells
- ✓ Drilling of the first well in the Black Sea (Rapsodia block) initiated

Arresting Production Decline via Application of New Technologies

17.3

bcm

14.7 i.

- 12 new wells started production
- 175 workover wells with output estimated at 0.15 bcm (vs 166 wells / 0.17 bcm in 2013)
 - (1) including 100% Schlumberger

- Gas compression added to a number of fields
 - Including FiliteInic, the largest field in Romgaz's portfolio
- Production rehabilitation measures
 - Romgaz driven for some fields
 - Partnership with Schlumberger and Amromco for other fields

⁽²⁾ Selected fields: (i) compression added Bazna, Filitelnic, Tg. Mures, (ii) production rehabilitation (Nades, Laslau, Roman) and (iii) 14 new producing fields. Production enhancement includes activities focused mainly on well workovers and new completion techniques.

Natural Gas Production

Successful production enhancement in some key fields

Largest Supplier of Gas in Romania (Domestic Production + Imports) Largest Producer with entire production sold locally

- Breakdown of volume sales: 56.1% Households (including thermal plants for the gas used for Households heating) + Industry 43.9% in 2014
- Around 63% of Romgaz' gas sales are to E.ON Energie and GDF Suez in terms of volume (2014)
- Significant market share in Romania's gas supply

14.2%
2.3%
4.1%
6.6PF Suez
6.100 Energie

Romgaz Key Clients in 2014

Romgaz Gas Deliveries in Romania's Total Supply

Imports Production (incl 50% Schlumberger and deliveries to lernut/Cojocna) and resold gas

Market share in Romania's gas supplies

Storage and Power

Romgaz is the Largest Owner and Operator of Gas Underground Storage Facilities in Romania Romgaz Entered the Power Segment with the Acquisition of Iernut Power Plant (CTE Iernut)

Underground Gas Storage

- Romgaz owns six facilities (90% market share) working capacity 2.76 bcm plus 40% stake in joint venture with Gaz de France - Depomures (300 mln cm)
- Regulated by ANRE using the revenue-cap methodology third 5-year regulatory period started in Apr 2013, royalties of 3% of operating revenues
- Capacity expansion plans Sarmasel (0.9 bcm/cvcle) Urziceni (0.360 bcm/cycle completed in 2014)

UGS	GS Working Capacity		UGS	W	Working Capacity		
Bilciuresti	•	1,310 mln cm/cycle	Cetatea de Balta	•	200 mln cm/cycle		
Sarmasel	•	800 mln cm/cycle	Ghercesti	•	150 mln cm/cycle		
Urziceni	•	250 mln cm/cycle	Balaceanca	•	50 mln cm/cycle		

Seasonality of Gas Consumption in Romania

Electricity Production

- In 2013 Romgaz expanded its business by the acquisition of CTE lernut Power Plant as settlement of a receivable worth RON 653 mln from Electrocentrale Bucuresti
- ۲ Power plant with good strategic positioning in the middle of the Romanian electricity system
- Power plant built between 1963-1967; an installed capacity of 800 MW ۲ (4x100 MW, 2x200 MW)
 - 2x100 MW to be out of service in January 2016 (environmental issues)
 - Units 5 & 6 (2x200 MW) can operate until 2020
 - Units 1 & 4 (2x100 MW) being modernized (to reduce NO_x emissions)
- Market share of 2.4% in terms of electricity production achieved in 2014 (output level of c. 1,435 GWh)
- Optimising gas production electricity production storage injection ۲
- Shareholders Extraordinary Meeting in January approved the initiation of a refurbishment project for lernut plant in the form of a JV, for building a new plant of max.400 MW and gross electrical efficiency of min.55%

Main strategic goals

	Enhanced recovery and development of already discovered resources
Increase of the gas resources	- Extend the life of and the amounts recoverable from existing fields
and reserves portfolio through	- Appraisal of substantial contingent resource base and subsequent conversion into reserves
the discovery of new resources	- Continue cooperation with Schlumberger and other partners
and the improvement of the recovery rate of already	Discovery of new resources in established geological plays
discovered resources	- Further exploration program (existing and new licenses)
	 Acquire additional blocks for exploration and development of conventional onshore gas resources
	Frontier Reservoirs
	- Further development of on-shore sub-salt reservoirs
Seeking New and Diversified	- Exploration of unconventional potential in Romania
Growth Opportunities	- Increasing focus on deep water reservoirs (Black Sea)
	Potential international opportunities
	Optimizing the Company's Policies and Procedures (monitoring and reporting)
Increasing the company's	Risk and Controls Management
performance	IT systems
Optimization, development and diversification of the UGS activity by reconsidering its importance in view of safety, continuity and flexibility of the natural gas supply	Increase the efficiency of the gas storage facilities in order to Enhance Gas Trading Capabilities

Management Agenda 2014-2015

Key Achievements

2014 - 2015 Selected Events						
March 26, 2014 Govt issued Order no. 13 / 2014 to amend the Ordinance no 7 / 2013 regarding the windfall tax on the additional revenues obtained by gas producers from the gas production price deregulation.	April 9, 2014 ANRE issued Order no. 29/2014 regarding the regulated income and tariffs to be applied during the third year April 2014 – Dec 2014 of the third regulatory period for the supply of UGS-related services by S.C. ROMGAZ S.A.		June 11, 2014 Govt issued Ordinance no. 35 / 2014 for amending the Electricity and Natural Gas Law no. 123 / 2012 according which to during July and end-2018, gas producers are required to transparently sell minimum gas quantities on centralized markets in Romania, in line with norms issued by ANRE (the regulator).		June-July, 2014 The Ordinary Meetings of Shareholders, held in June and July respectively, appointed two board members (Dumitru Chisălită and Sergiu Manea) to replace vacant positions.	
June 26, 2014 Govt issued Ordinance no. 511 / 2014 to set gas production price at RON 89.4/ MWh for industrial consumers except thermal plants for the gas used for heating households.	September 19, 2014 Govt amended the Fiscal Code Law by reducing the social insurance contribution owed by employers by 5% (from 20.8% to 15.8% for normal work, from 25.8% to 20.8% for special work and from 30.8% to 25.8% for heavy work).		September 30, 2014 Govt issued Law no 127 which amended the gas price deregulation calendar, postponing to July 1, 2021 the deadline for the price liberalisation of gas supplied to households.		October 22, 2014 ANRE issued Order no. 107 requiring gas suppliers to inform industrial consumers upon the end of the deregulation process on Dec 31, 2014, to submit a price offer to new eligible consumers and conclude negotiated contracts by June 30, 2015.	
December 30, 2014 Govt published the 2015 State Budget Law that is based on unchanged royalties and windfall tax and on a special construction tax of 1.0% vs 1.5% before.	January 19 / February 4, 2015 Appointments of Sorana Baciu and Dragoş Dorcioman as interim board members become effective.		January 26, 2015 The EGM approved the procurement of legal consulting services for the litigation initiated against ANAF and Interagro, start of a development project for lernut power plant and the setup of a UGS subsidiary.		March 18, 2015 The EGM approved the appointment of Sorana Baciu and Dragoş Dorcioman as board members and the incorporation documents for the UGS subsidiary.	

Appendix

- Current shareholding structure includes: the Romanian State (Ministry of Energy, SMEs and Business Environment) majority shareholder with a 70% stake; Property Fund (listed entity) 10%; free float (representing shares traded on the BVB and GDRs traded on the LSE): 20%
- The stock has a market capitalisation of EUR 3.1bn* and ranges the 2nd largest domestic stock traded on the BVB (after OMV Petrom)

Total no of shares: 385.42m

* Based on the trading price on April 29, 2015
